

# OUR EPIC TRANSPORT & GEAR

## OUR VEHICLES

We use 2 vehicles, one in Kruger and one in Cape Town. Our accessible vehicles are especially adapted by qualified mechanical engineers for wheelchair (disabled) passengers to travel in total safety and comfort. Both vehicles have hydraulic wheelchair lifts, inside the vehicle's wheelchairs are secured by means of factory built, quick release tie-downs to ensure safety whilst the vehicle is in motion. These tie-downs are bolted and secured to the framework of the vehicle body enhancing all-round safety aspects.

Each group is different as each individual traveller has different requests and needs. We like to keep the liberty of using the best suitable vehicle according to passengers booked on the individual tours.

### KRUGER NATIONAL PARK (4-12 PASSENGERS)

While in Johannesburg and the Kruger National Park we use our newest addition, the Iveco Daily 50C15V18 bus, with hydraulic passenger lift. The passenger compartment has been purposely built, with factory-constructed seats with seat belts with the middle row removed for the wheelchairs users. We can accommodate 4 – 6 wheelchair passengers (some will have to transfer into standard vehicle seats) and additional 6 – 8 seated passengers (non-wheelchair users).

### CAPE TOWN (4-10 PASSENGERS)

While in Cape Town we use a Mercedes Benz 518 Sprinter bus with hydraulic passenger lift. This Sprinter bus can take 3 – 4 wheelchair passengers (standard size wheelchairs) seated in their wheelchairs, secured with tie-downs to the floor, and an additional 6 – 7 seated passengers.

## OUR DAY TOURS

We use a Mercedes Benz 518 Sprinter bus with hydraulic passenger lift. This Sprinter bus can take 3 – 4 wheelchair passengers (standard size wheelchairs) seated in their wheelchairs, secured with tie-downs to the floor, and an additional 6 – 7 seated passengers.

## OUR EQUIPMENT

All quality camping equipment is provided and we prepare our own meals (on the Kruger safari). In addition we can also offer a bath swivel seat, shower/commode wheelchair, emergency wheelchair and movable handlebars.

Please mention when booking if you would like to make use of any of these aids to make sure we bring them on your tour.
